CV Match Profile
Amazon · Software Engineer Intern
88% match
Based on your uploaded CV · Illustrative analysis
Alex_CV.pdf
Updated Oct 9
Update resume
Matched requirements
Java or Python
JD: Experience with Java or Python.
CV evidence: Built a Java Spring Boot project; used Python for data analysis.
Problem solving
JD: Strong data structures and algorithms skills.
CV evidence: Algorithms coursework and a coding project using graph traversal.
Team collaboration
JD: Collaborate with engineers.
CV evidence: Delivered a team project with four students using Git.
Gaps to review
AWS experience · No evidence found
JD: Familiarity with AWS.
CV evidence: No AWS experience mentioned in the uploaded CV.
Degree completion · Needs confirmation
JD: Graduating in 2027.
CV evidence: Degree listed but graduation date is missing.
Missing CV evidence does not necessarily mean missing skills.

What should I expect in the OA?
JS
Jamie S. 2h ago
I just received an OA invitation for the Software Engineer Intern role. What should I focus on while preparing?
Any tips on the format, time management, or practice resources would be really helpful.

Check the instructions in your invitation first. Timed practice helped me get comfortable with the pace.
